Professional Profile

Passionate Full Stack Web Developer, I design dynamic, user-centric web applications with responsive design. Combining technical rigor and attention to detail, I guarantee the delivery of projects on time. As a committed trainer, I simplify complex concepts and encourage collaborative learning. Curious and always attentive to technological trends, I strive to stay at the forefront of innovation.

Professional Experience

Digital African Design Studio (DADS) / D-TALK Startup

📅 Nov. 2024 – Now
Full Stack Web Developer

- Creating high-performance and responsive web applications with a strong focus on user experience.
- Integration of clean and scalable code-based UX/UI designs, ensuring cross-device compatibility.
- Ensure accessibility and cross-browser compatibility for inclusive solutions.

Freelance

📅 June 2022 – Present
Full Stack Web Developer

- Realization of web projects with React.js, Express.js, Node.js and TailwindCSS.
- Complete project lifecycle management: from requirements analysis to final deployment.

- Direct communication with customers to ensure a full understanding of the objectives.

NGB Professional

📅 Jul. 2024 – Oct. 2024
Full Stack Development Trainer

- Supervision of web and mobile development students with the MERN stack.
- Facilitation of practical workshops and updating of teaching materials.
- Development of a program covering:
  - **Node.js & Express.js** – Robust Back-End Development
  - **MySQL with Docker Compose** – Efficient database management
  - **Prisma ORM** – Powerful Database Interactions
  - **React & Tailwind CSS** – Conception front-end responsive
  - **Postman** – API Testing
  - **Vercel** – Application Deployment
  - **Git & GitHub** – Collaborative work
- Support for the creation of mobile applications with excellent feedback on the pedagogical approach.

Technical Skills

- **Frontend** : React.js, HTML, CSS, TailwindCSS, Next.js
- **Backend** : Node.js, Express.js, Spring Boot, NestJS, Symfony
- **Database** : MySQL, NoSQL, Prisma ORM
- **Tools & DevOps** : Docker, Git, GitHub, Vercel
- **Testing & Deployment** : Postman, CI/CD

Formation

Higher Institute of Technological Studies of Béja
🎓 Bachelor's degree in Web & Mobile Development

- Specialization in application design, development and optimization.
- Realization of concrete projects focused on technological innovation.
